## Presentation

MB Services is a Congolese company specialized in providing the mining support services. Our offering include Engineering and maintenance services (SMPP), Civil work services, Industrial cleaning, Hiring labor, Metallurgical technical support, Supplies.

Additionally, we offer workforce supply for the industry, pipeline installation and dehydration services, civil engineering and engineering services, vector control (disinfection, insect control, rodent control, and fumigation), as well as the supply of equipment, goods, reagents, chemicals, and fertilizers.

## Services

- **Engineering and Maintenance Services (SMPP)**
- **Civil work services**
- **Nettoyage industriel**
- **Hiring labor**
- **Metallurgical technical support**
- **Supplies**

## Our Vision

Our vision is to continuously innovate and adapt to the changing market conditions, streamlining our operations, improving our products and services, and creating a continuous flow of offerings that bring unique value to our customers.

This approach will lead to sustainable business success, long-term growth, and profitability, ensuring that we can deliver exceptional quality service.

## Our values

These values reflect the importance of competence, professionalism, rigor, and seriousness in the company's culture and practices.

### Commitment

We emphasize rigor in our work, committing to upholding the highest quality standards and providing trustworthy services.

### Excellency

We are committed to maintaining a high level of competence and expertise in everything we do, striving for excellence in our performance and results.

### Integrity

We adopt a professional and rigorous approach in all our interactions, ensuring that our actions and decisions are guided by high ethical standards.

### Reliability

We demonstrate seriousness in our commitments to our clients by being reliable, punctual, and conscientious in delivering on our promises.

## Our Services

### 1. Workforce Supply for the Factory

That's correct! "plant work resources" encompasses the supply of tools, machinery, and essential equipment needed for the smooth operation of the factory or industrial facility. It ensures that the staff has the necessary resources to carry out their tasks effectively.

## 2. Ceramic lining solution

We provide a streamlined management structure, efficient operations, and dedicated field service teams for on-site refurbishments and installations

## 4. Anticorrosion

We specialize in painting and acid brick lining, offering high-quality surface protection and durability. Our expert team ensures precise application, enhancing structural resilience and longevity. Whether for industrial, commercial, or specialized projects, we deliver efficient, reliable, and long-lasting solutions tailored to meet your specific needs and industry standards.

## 5. Concrete

We do concrete and civil work.

## 6. Fixed plant maintenance

- Hydrocyclone
- Crusher and Mills
- Decanter or CCD's

## 7. Maintenance Services

Absolutely, "maintenance Services" covers both preventive and corrective maintenance of industrial equipment, including machinery, electrical systems, production facilities, and so on.

## 8. Piping Installation and Dehydration Services

This service involves the installation, maintenance, and repair of industrial piping systems, as well as the management of dehydration issues in industrial facilities.

## 9. Slurry pumps

The slurry pumps are industrial pumps designed to transport abrasive mixtures of solids and liquids, such as those encountered in mining, mineral processing, and wastewater treatment. They are designed to withstand the wear caused by abrasive particles and are essential for the efficient transport of these mixtures over long distances in challenging environments.

## 10. Mill Lines

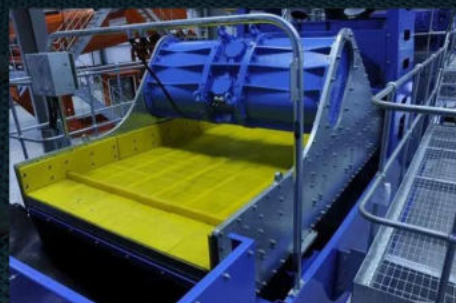

Mill Lines is an innovative software solution designed to streamline and optimize the manufacturing process. With its advanced features and user-friendly interface, Mill Lines provides manufacturers with a comprehensive set of tools to manage production, inventory, and quality control.

This cutting-edge system is revolutionizing the way manufacturers operate by providing real-time insights and actionable data to enhance efficiency and productivity..

## 11. Vibrating Screens panel

are essential equipment used in various industries to efficiently sort and classify materials during the crushing process. They operate through vibration, allowing for effective separation and classification of materials.

# 12. Civil work and Engineering Services

This encompasses the design, construction, and maintenance of civil infrastructure within an industrial context, as well as associated engineering services such as structural analysis, quality control, etc.

### 13. Industrial Cleaning Services

This encompasses the supply of tools, machines, and essential equipment necessary for the proper functioning of the factory or industrial facility.

It ensures that the staff has the necessary resources to carry out their tasks effectively.

## 14. Waste Management (Septic Tanks and Dumpsters)

This involves the collection, processing, and recycling of industrial waste, including the management of septic tanks and dumpsters within an industrial environment.

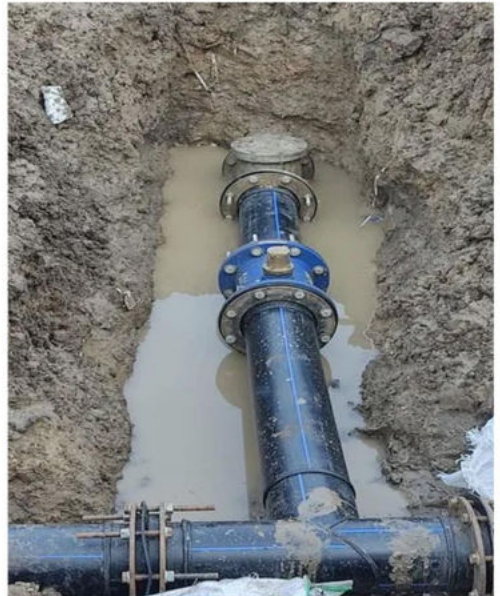

## Our Products

We provide materials and products, offering our customers a comprehensive range of hardness, with hardness profiles that maximize performance against wear and impact.

### I. PIPING: Steel - HDPE - PVC

## II. Personal Protective Equipment

### II.a. Safety

- Ordinary and special shoes
- Boots
- Waders
- Head protection
- Hand protection
- Workwear: Proposed model

## III. Reagents, fertilizers, and cleaning products

### III.a. REAGENTS :

#### Laboratory Reagents

- Vector Control, Rat Control, etc.
- Water Treatment

## Disposable products

- Paper towels
- Toilet paper
- Wiping roll

## Body products made of cotton:

- Napkins
- Hand towels
- Bed sheets

## Cleaning products :

- Window cleaner, floor cleaner,
- Bathroom products,
- Disinfectant gel,
- Laundry detergent.

## ACCESSOIRES

Bolts and nuts  
Welding equipment  
Seals;  
Hose clamps;  
Quick couplings;  
Cutting tools  
Threaded rods  
Rawl bolts,  
Flanges,  
Mechanical seals,  
Bearings and bearing protectors,  
Sealing support systems  
Gland packings,  
Swagelok fittings,  
Crusher,  
Sieve,  
Conveyor,  
Spare parts.

## IN SUMMARY

We, with our teams, approach the future with enthusiasm, optimism, and commitment. Our common goal is to consistently exceed our clients' expectations. As a dynamic, innovative, and committed company, our current priority is the environment and ecology.

We are fully aware of environmental hazards and have shifted towards sustainability. Our main vision is the protection of our environment and the future of our planet.

At MB Services, we are committed to mentoring and professionalizing our staff to provide you with quality services and fast delivery. These elements are essential for establishing a long-term partnership.
